

sk_mark_napi_id_once

sk_mark_napi_id_once_xdp

__sk_mark_napi_id_once

```
graph LR; A[sk_mark_napi_id_once] --> C[__sk_mark_napi_id_once]; B[sk_mark_napi_id_once_xdp] --> C;
```

The diagram illustrates a mapping or transformation. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'sk_mark_napi_id_once' and the bottom box contains 'sk_mark_napi_id_once_xdp'. On the right, there is a single gray rectangular box with a black border containing the text '__sk_mark_napi_id_once'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both source identifiers are mapped to the same target identifier.
