The diagram illustrates the relationship between the header file `arch/x86/include/asm/cpufeatures.h` and the files it includes. The top box, which is shaded gray, represents the main header file. Two blue arrows point downwards from this box to two separate white boxes below it. The left box contains the text `asm/required-features.h` and the right box contains the text `asm/disabled-features.h`, indicating that the main header file includes both of these files.
