

debug_object_activate

debug_object_assert_init

debug_object_init

```
graph LR; A[debug_object_activate] --> C[debug_object_init]; B[debug_object_assert_init] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box contains the text 'debug_object_activate' and the bottom box contains 'debug_object_assert_init'. Both boxes have a black border and a white background. On the right, there is a single box containing the text 'debug_object_init'. This box also has a black border but has a light gray fill. Two blue arrows originate from the right side of the left boxes. One arrow starts from the right side of the 'debug_object_activate' box and points to the left side of the 'debug_object_init' box. The other arrow starts from the right side of the 'debug_object_assert_init' box and also points to the left side of the 'debug_object_init' box.
