

drm_vma_node_verify
_access

```
graph LR; A[drm_vma_node_verify_access] --> B[drm_vma_node_is_allowed]
```

A diagram showing a call from the function `drm_vma_node_verify_access` to the function `drm_vma_node_is_allowed`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

drm_vma_node_is_allowed
