

efi_thunk_query_variable
_info_nonblocking

```
graph LR; A[efi_thunk_query_variable_info_nonblocking] --> B[spin_unlock_irqrestore]
```

A diagram showing a pointer relationship. On the left, a gray rectangular box contains the text 'efi_thunk_query_variable_info_nonblocking'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'spin_unlock_irqrestore'.

spin_unlock_irqrestore
