

hugetlb_reserve_pages

hugetlb_vm_op_close

resv_map_release

```
graph LR; A[hugetlb_reserve_pages] --> C[resv_map_release]; B[hugetlb_vm_op_close] --> C;
```

The diagram illustrates a functional dependency or call sequence. Two white rectangular boxes on the left, labeled 'hugetlb_reserve_pages' and 'hugetlb_vm_op_close', have blue arrows pointing to a single gray rectangular box on the right labeled 'resv_map_release'. This indicates that both functions contribute to or call the 'resv_map_release' function.
