

find_zero

```
graph LR; A[find_zero] --> B[count_masked_bytes]
```

A diagram showing a call from the function `find_zero` to the function `count_masked_bytes`. The `find_zero` box is shaded gray, and the `count_masked_bytes` box is white. A blue arrow points from the right side of the `find_zero` box to the left side of the `count_masked_bytes` box.

count_masked_bytes
