

test_hash_init

test_int_hash

__hash_32_generic

```
graph LR; A[test_hash_init] --> B[test_int_hash]; B --> C[__hash_32_generic];
```

The diagram illustrates a sequence of three hash functions connected by arrows. The first box, 'test_hash_init', is white with a black border. An arrow points to the second box, 'test_int_hash', which is also white with a black border. Another arrow points from the second box to the third box, '__hash_32_generic', which is shaded gray with a black border.
