

LZ4_decompress_safe
_continue

LZ4_decompress_safe
_usingDict

LZ4_decompress_safe
_withPrefix64k

```
graph LR; A[LZ4_decompress_safe_continue] --> C[LZ4_decompress_safe_withPrefix64k]; B[LZ4_decompress_safe_usingDict] --> C;
```

The diagram illustrates a relationship between three LZ4 decompression functions. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'LZ4_decompress_safe_continue' and the bottom box contains 'LZ4_decompress_safe_usingDict'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'LZ4_decompress_safe_withPrefix64k'. The gray box is positioned such that it receives input from both functions on the left.
