xen_zap_pfn_range

```
graph LR; A[xen_create_contiguous_region] --> C[xen_zap_pfn_range]; B[xen_destroy_contiguous_region] --> C;
```

The diagram illustrates a flow where two separate functions, `xen_create_contiguous_region` and `xen_destroy_contiguous_region`, both point to a single target function, `xen_zap_pfn_range`. The target function is highlighted with a gray background, while the source functions have white backgrounds. Blue arrows indicate the direction of the flow from left to right.
