

dma_common_get_sgtable

dma_common_mmap

dma_common_vaddr_to_page

```
graph LR; A[dma_common_get_sgtable] --> C[dma_common_vaddr_to_page]; B[dma_common_mmap] --> C;
```

The diagram illustrates a dependency or mapping relationship. Two source functions, 'dma_common_get_sgtable' and 'dma_common_mmap', are shown on the left. Arrows from both point to a single target function, 'dma_common_vaddr_to_page', which is highlighted with a gray background. This suggests that both source functions rely on or utilize the target function.
