

start_isolate_page
_range

undo_isolate_page_range

unset_migratetype_isolate

```
graph LR; A[start_isolate_page_range] --> C[unset_migratetype_isolate]; B[undo_isolate_page_range] --> C;
```

The diagram illustrates a data flow or function call. On the left, there are two rectangular boxes. The top box contains the text 'start_isolate_page' followed by a line break and '_range'. The bottom box contains the text 'undo_isolate_page_range'. On the right, there is a single rectangular box with a light gray fill and a black border, containing the text 'unset_migratetype_isolate'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box. The top arrow starts from the right side of the 'start_isolate_page_range' box and points to the top half of the 'unset_migratetype_isolate' box. The bottom arrow starts from the right side of the 'undo_isolate_page_range' box and points to the bottom half of the 'unset_migratetype_isolate' box.
