

parport_pc_frob_control

parport_pc_write_control

parport_pc_data_reverse

```
graph LR; A[parport_pc_frob_control] --> C[parport_pc_data_reverse]; B[parport_pc_write_control] --> C;
```

The diagram illustrates a data flow or dependency. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'parport_pc_frob_control' and the bottom box contains 'parport_pc_write_control'. On the right, there is a gray rectangular box with a black border containing the text 'parport_pc_data_reverse'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that the two control variables on the left influence or point to the data variable on the right.
