

stack_map_peek_elem

stack_map_pop_elem

__stack_map_get

```
graph LR; A[stack_map_peek_elem] --> C[__stack_map_get]; B[stack_map_pop_elem] --> C;
```

The diagram illustrates a mapping where two distinct functions, `stack_map_peek_elem` and `stack_map_pop_elem`, both point to a single target function, `__stack_map_get`. The target function is highlighted with a gray background, while the source functions have white backgrounds. Blue arrows indicate the direction of the mapping from left to right.
