

include/sound/seq_kernel.h

```
graph TD; A[include/sound/seq_kernel.h] --> B[linux/time.h]; A --> C[sound/asequencer.h];
```

The diagram illustrates a header file dependency. At the top, a gray box contains the text 'include/sound/seq_kernel.h'. Two blue arrows originate from the bottom of this box and point downwards to two separate white boxes. The left box contains 'linux/time.h' and the right box contains 'sound/asequencer.h'. This represents the 'seq_kernel.h' header file including both 'linux/time.h' and 'sound/asequencer.h'.

linux/time.h

sound/asequencer.h
