

include/linux/spinlock_up.h

```
graph TD; A[include/linux/spinlock_up.h] --> B[asm/processor.h]; A --> C[asm/barrier.h];
```

The diagram illustrates the header file dependencies for `include/linux/spinlock_up.h`. It is represented as a box at the top with two arrows pointing downwards to two other boxes: `asm/processor.h` on the left and `asm/barrier.h` on the right.

asm/processor.h

asm/barrier.h
