

file_operations

```
graph BT; dfs_node[dfs_node] -.->|fops| file_operations[file_operations];
```

The diagram illustrates a pointer relationship between two data structures. At the bottom is a gray rectangular box labeled 'dfs_node'. A dashed purple arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box at the top labeled 'file_operations'. To the right of the arrow, the text 'fops' is written, indicating the variable or field that holds the pointer.
