

rds_iovec

```
graph BT; rds_rdma_args[rds_rdma_args] -.->|remote_vec| rds_iovec[rds_iovec];
```

The diagram illustrates a pointer relationship between two data structures. At the top is a white rectangular box labeled 'rds_iovec'. At the bottom is a gray rectangular box labeled 'rds_rdma_args'. A dashed purple arrow points from the top of the 'rds_rdma_args' box to the bottom of the 'rds_iovec' box. To the right of the arrow, the text 'remote_vec' is written, indicating the name of the pointer or field that facilitates this relationship.
