

include/linux/sysrq.h

```
graph TD; A[include/linux/sysrq.h] --> B[linux/errno.h]; A --> C[linux/types.h];
```

The diagram illustrates a header file dependency. At the top, a gray box contains the text 'include/linux/sysrq.h'. Two blue arrows originate from the bottom of this box and point downwards to two separate white boxes. The left box contains 'linux/errno.h' and the right box contains 'linux/types.h'. This represents the 'include/linux/sysrq.h' header file including the 'linux/errno.h' and 'linux/types.h' header files.

linux/errno.h

linux/types.h
