

round_jiffies

```
graph LR; A[round_jiffies] --> B[round_jiffies_common]
```

A diagram showing a pointer relationship between two variables. On the left, a gray rectangular box contains the text 'round_jiffies'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'round_jiffies_common'. Both boxes have a black border.
