

include/uapi/linux
cec.h

```
graph TD; A["include/uapi/linux/cec.h"] --> B["linux/types.h"]; A --> C["linux/string.h"];
```

The diagram illustrates a header file dependency. At the top, a grey rectangular box contains the text 'include/uapi/linux/cec.h'. Two blue arrows originate from the bottom edge of this box. The left arrow points to a white rectangular box containing 'linux/types.h'. The right arrow points to another white rectangular box containing 'linux/string.h'. All boxes have a thin black border.

linux/types.h
