

include/uapi/linux
/in6.h

```
graph TD; A["include/uapi/linux/in6.h"] --> B["linux/types.h"]; A --> C["linux/libc-compat.h"]
```

The diagram illustrates a header file dependency. At the top, a grey rectangular box contains the text 'include/uapi/linux/in6.h'. Two blue arrows originate from the bottom of this box. The left arrow points to a white rectangular box containing 'linux/types.h'. The right arrow points to another white rectangular box containing 'linux/libc-compat.h'. All boxes have black borders.

linux/types.h

linux/libc-compat.h
