

include/uapi/linux
/mii.h

```
graph TD; A["include/uapi/linux/mii.h"] --> B["linux/types.h"]; A --> C["linux/ethtool.h"]
```

The diagram illustrates a header file dependency. A central box at the top, labeled 'include/uapi/linux/mii.h', has two blue arrows pointing downwards to two separate boxes. The left box is labeled 'linux/types.h' and the right box is labeled 'linux/ethtool.h'. This indicates that the 'mii.h' header file includes definitions from both 'types.h' and 'ethtool.h'.

linux/types.h

linux/ethtool.h
