

include/linux/via_i2c.h

```
graph TD; A[include/linux/via_i2c.h] --> B[linux/i2c-algo-bit.h]; A --> C[linux/i2c.h]; B --> C;
```

The diagram illustrates the include relationships between three Linux kernel header files. At the top is 'include/linux/via_i2c.h' in a grey box. It has two outgoing arrows: a straight one to 'linux/i2c-algo-bit.h' in the middle, and a curved one to 'linux/i2c.h' at the bottom. Additionally, there is a straight arrow from 'linux/i2c-algo-bit.h' to 'linux/i2c.h'.

linux/i2c-algo-bit.h

linux/i2c.h
