

vmci_event_data_payload

```
graph LR; A[vmci_event_data_payload] --> B[vmci_event_data_const_payload]
```

A diagram showing a pointer relationship between two variables. On the left, a gray rectangular box contains the text 'vmci_event_data_payload'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'vmci_event_data_const_payload'.

vmci_event_data_const
