

remove_watch_from_object

watch_queue_clear

put_watch

```
graph LR; A[remove_watch_from_object] --> C[put_watch]; B[watch_queue_clear] --> C;
```

The diagram illustrates a functional dependency or call sequence. Two functions, 'remove_watch_from_object' and 'watch_queue_clear', are shown on the left. Arrows from both of these functions point towards a third function, 'put_watch', which is located on the right. The 'put_watch' function is highlighted with a gray background, while the other two have white backgrounds. All boxes have black borders.
