

zswap_frontswap_load

zswap_writeback_entry

zpool_can_sleep_mapped

```
graph LR; A[zswap_frontswap_load] --> C[zpool_can_sleep_mapped]; B[zswap_writeback_entry] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box is white with a black border and contains the text 'zswap_frontswap_load'. The bottom box is also white with a black border and contains the text 'zswap_writeback_entry'. On the right, there is a single box that is gray with a black border and contains the text 'zpool_can_sleep_mapped'. Two blue arrows point from the right side of the top-left box to the left side of the right box. Another two blue arrows point from the right side of the bottom-left box to the left side of the right box.
